# Missouri State Assistance for Housing Relief (SAFHR)

## Overview

The State Assistance for Housing Relief (SAFHR) Program provides rent and utility assistance for households who have been impacted by COVID-19. Eligible tenants can apply for financial assistance to be paid directly to their landlord or utility provider. Financial assistance includes rent and utility arrears for the period beginning April 2020 and up to 3 months of forward rent and prepaid fuel utility assistance. The tenant must not owe rental arrears beyond any requested rental arrears through this program in order to apply for forward rent assistance. In order to receive utility assistance, tenants must have an invoice from the utility provider to support the request. Total assistance any tenant receives through SAFHR cannot exceed a period of 12 months.

The SAFHR Program is funded through the Consolidated Appropriations Act, 2021, Pub. L. No. 116-260 (December 27, 2020) (the "Act") and provided to the State of Missouri from the U.S. Department of the Treasury for Emergency Rental Assistance. Federal guidance regarding this program is still in development at the federal level and will be communicated as received on the SAFHR website. Assistance provided through the Missouri SAFHR Program will become available in phases. The first priority and phase one is to provide rental and utility assistance to eligible Missouri households beginning February 2021. Rental assistance requests will be processed first and utility assistance requests are anticipated to be processed in March 2021.

Please note: if requesting rental assistance, eligible tenants must complete the online application in collaboration with their landlord. **In order to successfully submit an online application the tenant and landlord, if applying for rental assistance, must have an active email address.**

Applications will be evaluated for eligibility and completeness. Tenants will be notified of application status or asked for additional requested items by email. Landlords will be notified of application status for rental assistance requests by email.

Applications for eligible households in which one or more household member is unemployed as of the date of the application and has been unemployed for the previous 90 days and/or households that do not exceed 50 percent of the Area Median Income (AMI) will be prioritized for assistance as required by the U.S. Department of the Treasury.

## What can Missouri SAFHR Cover?

There are no minimum or maximum award amounts or maximum rents for this program. Tenants are eligible to receive a one-time payment of up to 12 months of past due rent and fees or “rental arrears” to be paid directly to their landlord, up to 3 months of forward rent assistance to be paid

directly to their landlord, up to 12 months of utility arrears to be paid directly to the utility provider, and up to 3 months of forward fuel utility assistance to be paid directly to the utility provider. Award amounts can be provided period beginning April 1, 2020. Total assistance cannot exceed 12 months. A month may include rent and multiple utility services.

In order to receive utility assistance, tenants must have a past due bill or quote from the utility provider to support the request. In order to receive rental assistance, tenants must have documentation of the rent owed or an eviction notice. Rental arrears must be clear or cleared before any forward rental assistance will be awarded.

## **Determining Tenant Household Income**

To be eligible for the program tenant households must have an estimated household income at or below 80 percent of the Area Median Income (AMI) established by the Department of Housing and Urban Development (HUD). AMI is based on the County where the property/unit is located and the number of people in the household. All members of the household should be included and do not need to be related. In the SAFHR application, tenants will select whether their household income falls in the 0-30 percent, 30-50 percent, or 50-80 percent AMI range. Income limits and income ranges can be determined by downloading the [SAFHR Income Ranges](#) worksheet.

Tenants will enter their estimated total household annual income in the SAFHR application. Income estimates should be based on the average gross income for the most recent 30 days or the household's 2020 total annual income if a tenant is not income eligible based on estimated income for the most recent 30 days. Income estimates must include income for all household members over 18 years of age.

### **Income self-certification**

All applicants will certify under penalty of perjury that the household income information provided in association with the Application for federal emergency rental and/or utility assistance benefits is true and correct in all respects. The applicant will also expressly acknowledge and understand that penalties may be imposed for providing false or misleading income information, including but not limited to, the denial of benefits, permanent disqualification, or referral to appropriate governmental and legal authorities.

Applicants may provide documentation supporting the income-amount reported in the application, but supporting documentation is not required if it unavailable or difficult to produce.

# SAFHR Application Overview

There are three (3) tasks to complete in the SAFHR application in the application portal:

1. Tenant Eligibility Checklist
2. Tenant Portion of Application
3. Landlord Portion of Application (for rental assistance requests)

## 1. Tenant Eligibility Checklist

- Tenant applicants first complete an online eligibility checklist to certify that they meet and agree to program criteria. The eligibility checklist is a series of checkboxes certifying eligibility statements. All boxes must be checked “yes” to qualify and move forward in the application.
- The eligibility checklist also includes an authorization to release application information to the landlord and utility companies in order to access information to make a payment on their behalf. Tenants will enter their address and electronically sign the release form.
- After completing the online eligibility checklist, tenants will move to the next task to complete their portion of the online application.

## 2. Tenant Portion of Application

- The online application asks for information on the tenant household make-up, the property/unit for which they are requesting assistance, and financial request information.
- If requesting rental arrears or forward rent assistance, tenants will enter their landlord contact information in the online application portal so the landlord can be contacted via email to complete a portion of the application. The landlord portion of the application will not be visible to the tenant and the tenant portion of the application will not be visible to the landlord.

## 3. Landlord Portion of Application (for rental assistance requests)

- After the tenant enters contact information for their landlord in the application portal, landlords will receive a link via email to complete their portion of the application in the online portal. Tenants do not have access to information provided by the landlord.
- Landlords will provide their contact and payment information and verify the requested rental assistance. This includes banking information for the account receiving funds and the upload of a voided check or letter from the bank verifying the account information provided is accurate. In addition, landlords will also provide proof of ownership of the property (required) and a management company contract (if applicable).
- Tenants will receive an automated email notification after the landlord completes their portion of the application. Tenants will then log back into the online portal to submit the completed SAFHR application.

Applications will be reviewed for eligibility and completeness. If an application is not complete or has information that deems it ineligible, tenants will receive a notification email and will have 10 days to log back into their application, update or “cure” the information, and resubmit their application. For details on application corrections please review the detailed “cure” guidance provided on the SAFHR website [www.mohousingresources.com/safhr](http://www.mohousingresources.com/safhr).

If the application is reviewed and determined to be complete and eligible, the tenant and landlord (if rental assistance awarded) will receive confirmation emails notifying them of the funding award.

Rental assistance awards will be paid first. Utility requests will be reviewed and utility providers will be contacted to receive payment in March 2021. If MHDC is able to collect the information to pay the utility provider, the payment will be made. If the utility provider will not accept payment, the tenant will be notified of an alternate process. Tenants will be required to provide consent in their application allowing MHDC to discuss their account with the landlord or utility company to make payment arrangements.
